Absolutely the most honest, professional, and talented contractor I have ever dealt with. I’m an attorney and am usually a good judge of character and can spot deception. This was flawless work and great integrity. I’d call Team Handyman again in a minute.”

-Patrice G., Danville, NH

“We have used Team Handyman services since 2004. They did a complete interior reconstruction/remodeling for our business: walls, insulation, windows, painting, flooring/carpeting, electrical, lighting, plumbing. They continue to do all types of work on our home: plumbing/water valve repairs, flooring, walls/ceiling, appliance repair, lighting/electrical, windows, painting. Very prompt - I have called them at 6 p.m. on a holiday weekend and they have responded within minutes. Their fees are excellent. In fact, quite low, when you see the high quality of work they provide. Trustworthy and honest - I know I can give them a key and not think twice about it. I recommend Team Handyman to everyone I know, because there is no risk when using their services. They are ethical, honest, efficient and provide superior work. I haven’t used another company since meeting them - and will continue to use their services! The best!!

-Cindy K., Methuen, MA

“We have used Team Handyman 3 times for 3 different projects, and will definitely call for future projects. They are professional, friendly, very accessible by cell phone or email and does the absolute best work in a timely manner. We feel very lucky to have found Team Handyman!”

-Cheryl and Frank K., Newton, NH

“Team Handyman not only does beautiful work, they deliver quality without exception. I have a very ‘custom’ home - everything must be measured, designed, and custom built, and “fit” into place. After taking all kinds of measurements and listening to what I was looking for, Team Handyman installed a beautiful exterior door and storm door that fit perfectly. The storm door is tight, functions perfectly and opens ALL THE WAY...w/o it scraping across the rug...and no more drafts!!”

-Paula C., Dracut, MA

“Excellent! Finally, a handyman we can trust! They arrived on time, took care of all our projects, and were very pleasant. I recommend Team Handyman highly for any type of project. They were amazing. We are going to hire them for additional work on our house.”

-Margaret M., South Hampton, NH

“Very professional, great communication. The Job was finished in the allotted time estimate and in the manner described. Completely satisfied.”

-Neighbor, Newburyport, MA

“Service is our #1 product!”

-Tom Trudeau, President

Team Handyman, LLC is THE team to complete your to-do list!

We handle repairs, maintenance and remodeling projects for your home or business. Our innovative company developed a method that is both professional and practical. We simplify the process, charging by the hour, breaking down the hour into fifteen minute increments, so you are truly in control. You are charged only for the time the technician is working.

Your technician, who has been trained to be neat and clean in appearance and work, will arrive, ready to work, in a professionally lettered, fully stocked truck, wearing the Team Handyman uniform.

What can Team Handyman do for you? Many things! Team Handyman services can save you time, money and energy from your first phone call to your project completion. We work the simple tasks - adjusting doors, hanging decorations, power washing homes, painting, etc. - to the more complex - constructing decks, exterior upgrades, new bathroom, in-law addition, etc.

Our team concept is reflected throughout Team Handyman. Our team members are well-mannered and competent, listen to our clients, explain options and offer suggestions, in order to help us meet the needs of a home or business owner. We are dedicated to quality and excellence in workmanship and are committed to serving our customers with care.

Team Handyman is your team to tackle your to-do list! One phone call will get the ball rolling. We look forward to “teaming up” with you soon!
